

Ooma[®] Office

Hardware Catalog

The most reliable, easiest to use, simplest to install business phone service.

Ooma Office is the #1 rated cloud-based business phone service that equips you with features to run your business better.

- You can automate incoming calls by routing and messaging them.
- Use the app, and answer and make calls from your business number anywhere.
- Scale easily with flat user pricing.

Whether you have 2, 20, or 200+ employees, Ooma Office was designed so you can use analog phones connected through the Ooma Office base station, or with Ooma Office provisioned IP phones. Read on to learn more about our Ooma Office hardware options.

Base Station

The Ooma Office Base Station uses your high-speed Internet connection to deliver a superior business phone service. It utilizes the power of the cloud to deliver advanced features and each can support five analog phones. You can add as many base stations as you need to support hundreds of analog phones. Extensions can work wirelessly through Ooma Linx or the Ooma DP1-O phone, so installation is a cinch.

Ooma Linx

The Ooma Linx with DECT 6.0 technology allows you to wirelessly connect phones with dedicated extensions or fax machines to the Ooma Office base station. Connect up to 4 Ooma Linx devices to each Ooma Office base station.

Yealink T48S

Add a powerful new executive-level phone to your Ooma Office setup with the Yealink SIP-T48S. The dynamic, color touchscreen makes it easy to navigate through all the phone has to offer while advanced HD voice technology ensures that every call is crystal clear.
